INDEX GUIDE

This index provides a detailed analysis of legislative committee proceedings in English or French as spoken by the participants. Translations are not provided in either language.

Entries are cross-referenced and alphabetically arranged into two sections, the Subject Index and the Speaker Index.

Subject Index - The main entry in this section is a subject heading which is followed by a list of members who spoke on the subject and page references. Subject headings that do not require speakers, e.g., Divisions (recorded vote), are followed by subheadings and page numbers only. Typical entries in the Subject Index appear as follows:

Underground economy

Delaney, F1384

Divisions (recorded vote)

Investing in Ontario Act, 2008 (Bill 35)

Amendments, F408-F416

Speaker Index - The main entry in this section is a member's name and riding followed by a list of topics spoken on by that member and page references. Typical entries in the Speaker Index appear as follows:

Delaney, B. (Lib, Mississauga-Streetsville)

Underground economy, F 1384

Video game industry, E844-E845

French proceedings are grouped under the heading **French-language debates** followed by subheading/s in French.

This index also includes alphabetical lists of witnesses (individuals/organizations) and committee staff with corresponding page references indicating their participation in committee proceedings.

Committees are numbered according to session. A list of issues, dates and page numbers for the First Session of the 39th Parliament is on page 2.

The **Subject** and **Speaker** sections of the index, as well as the **list of issues, dates and page numbers**, are also available on the Internet at <http://www.ontla.on.ca/>
